Safety Data Sheet

According to Regulation (EC) No 1907/2006, Annex II and Commission Regulation (EU) 2015/830

Version 1.0: 2017-02-24

ZAP Grease CENTRAL EP 00

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product Identifier:

ZAP Grease CENTRAL EP 00

1.2. Relevant identified uses of the substance or mixture and uses advised against:

Lithium semi-fluid lubricating grease.

1.3. Details of the supplier of the safety data sheet:

ZAP LUBES SIA,

5 VISKALU STREET LV-1026 RIGA, LATVIA Phone: + 371 67543642 e-mail: <u>sales@zap-grease.com</u> www.zap-grease.com

1.4. Emergency telephone number:

State Fire And Rescue Service Of Latvia: +371 112 Valsts Toksikoloģijas Centrs (National Toxicology Center), **Saindēšanās un zāļu informācijas centrs** (Poisoning and Drug Information Centre) Address: Hipokrāta 2, LV-1038 Riga, Latvia, Phone: +371 67042473, service is available 24 hours

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

Classification according to Regulation (EC) No 1272/2008 (CLP)

Not classified.

This product does not meet the criteria for classification in any hazard class according to Regulation (EC) No 1272/2008 on classification, labelling and packaging of substances and mixtures.

2.2. Label elements

Labelling according to Regulation (EC) No 1272/2008 (CLP)

East and according to hega	
Hazard pictograms	Not applicable.
Signal word	Not applicable.
Hazard Statements	Not applicable.
Precautionary statements	Not applicable.
Voluntary precautionary advice	S
- in general	Keep out of reach of children (P102).
- for prevention	Wash skin thoroughly after handling (P264).
	Wear protective gloves/protective clothing/eye protection/face protection (P280).
- in reaction	Take off contaminated clothing (P362).
- at storage	None
- for disposal	Dispose of contents/container in accordance with all local, regional, national and

international regulations (P501).

Supplemental label elements EUH210 Safety Data Sheet available on request.

2.3. Other hazards

The product does not contain any substance which meets the criteria for PBT and vPvB in accordance with Annex XIII.

Revision No. 1 24.02.2017

C ZAP Grease CENTRAL EP 00

SECTION 3: Composition/information on ingredients

3.2. Mixtures

Mixture Description

Lithium semi-fluid lubricating grease.

Substance name	%, weight	REACH Registration No.	EINECS/CAS No	Classification according to regulation (EC) No 1272/2008 (CLP)
Lubricating oils (petroleum), C24-50, solvent-ext., dewaxed, hydrogenated	< 98	01-2119489969-06	309-877-7/101316-72-7	Not classified
Zinc dialkyl dithiophosphate	< 1	*	272-028-3 / 68649-42-3	Skin Irrit. 2, H315 Eye Dam. 1, H318 Aquatic Chronic 2, H411

NOTES:

All mineral oils are considered to be severely refined and not considered to be carcinogenic under IARC. All the oils in this product contain < 3% DMSO extract (IP 346).

* - not available or substance is not currently required for registration under REACH For a full text of H-statements: See SECTION 16

SECTION 4: First aid measures

4.1.	1.1. Description of first aid measures	
	Inhalation	If irritation, headache, nausea, or drowsiness occurs, remove to fresh air. Get
		medical attention if breathing becomes difficult or symptoms persist.
	Skin contact	Wash skin with plenty of soap and water for several minutes. Get medical
		attention if skin irritation develops or persists.
	Eye contact	Remove contact lenses before flushing, if any and easy to do. Immediately flush eyes with plenty of clean water keeping eyelids apart. Get medical attention if eye irritation persists.
	Ingestion	DO NOT INDUCE VOMITING. Get medical attention. Never give anything by mouth to an unconscious or convulsing person.
	Need of immediate medical attention	If nausea or irritations do not appear after ingestion, give medical carbon in water slurry (3 tablespoons in one liter water).
4.2.	4.2. Most important symptoms and effects, both acute and delayed	
4.2.		Prolonged inhalation of unusually high concentrations of product mist or vapours may cause nose and lung irritation, headache, nausea and drowsiness. Prolonged or repeated skin contact may produce allergic reactions such as redness, rash and dermatitis. Prolonged eye contact may cause irritation, redness and discomfort. If more than several mouthfuls are swallowed, abdominal discomfort, nausea, and diarrhea may occur.
4.3.	Indication of any immediate r	medical attention and special treatment needed
		Treat symptomatically
SECTI	ON 5: Firefighting measures	
5.1.	Extinguishing media	
	Suitable Extinguishing media	Use water fog, dry powder, foam or carbon dioxide. Use water to cool fire- exposed containers. If the leak or spill has not ignited, use water fog to disperse the vapours and to provide protection for personnel attempting to stop the leak.
	Unsuitable Extinguishing media	Water jet

Revision No. 1 24.02.2017

5.2. Special hazards arising from the substance or mixture

Smoke, carbon monoxide, carbon dioxide and other products of incomplete combustion.

5.3. Advice for firefighters

Special protective equipment The nature of special protective equipment required will depend upon the size of the fire, the degree of confinement of the fire and the natural ventilation for firefighters available. Fire-resistant clothing and self-contained breathing apparatus is recommended for fires in confined spaces and poorly ventilated areas. Full fireproof clothing is recommended for any large fires involving this product Extinguishing procedures In case of fire - Always call the fire brigade. Small fires, such as those capable of being fought with a hand-held extinguisher, can normally be fought by a person who has received instruction on the hazards of flammable liquid fires. Fires that are beyond that stage should only be tackled by people who have received handson training. Ensure escape path's available.

SECTION 6: Accidental release measures

6.1.	Personal precautions, protective equipment and emergency procedures		
	For non-emergency personnel	No action shall be taken involving any personal risk or without suitable training.	
		Evacuate surrounding areas. Keep unnecessary and unprotected personnel from	
		entering. Do not touch or walk through spilled material. Do not breathe vapour or	
		mist. Provide adequate ventilation. Wear appropriate respirator when ventilation	
		is inadequate. Put on appropriate personal protective equipment.	
	For emergency responders	If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".	
6.2.	Environmental precautions	Prevent entry into sewers and waterways. Pick up free liquid for recycle and/or disposal. Residual liquid can be absorbed on inert material.	
6.3.	. Methods and material for containment and cleaning up		
		Clean-up spill as soon as possible while following the requirements for exposure control/personal protection. Use sand and sawdust to clean. Use appropriate cleaning techniques such absorption by fire resistant material or pumping.	
6.4.	Reference to other sections	See Section 8 for more information on personal protective equipment. See Section 13 for waste disposal practices.	

SECTION 7: Handling and storage

7.1.	Precautions for safe hand	dling	
		Avoid prolonged or repeated contact with skin. Avoid breath hands after handling. Do not smoke.	ing of vapours. Wash
7.2.	Conditions for safe storage	ge, including any incompatibilities	
		Keep containers closed when not in use. Avoid exposure to h temperature. Do not store near explosive substances, com pressurized gases, flammable liquids or oxidizing agents.	
7.3.	Specific end use(s)	In accordance with the relevant product specification.	
Revisi	on No. 1		
24.02.	2017	A	Page: 3 of

ZAP Grease CENTRAL EP 00

Page: 3 of 8

8.1.	Control parameters	
	Occupational exposure limits	Union occupational exposure limit values do not refer to any components of a mixture specified in Section 3.
		Please refer to National occupational exposure limits, if applicable.
8.2.	Exposure controls	
	Appropriate engineering controls	Use in well-ventilated areas.
	Individual protection measures, such as personal protective equipment	Follow the good occupational and personal hygiene practices to control produce exposures.
	Eye/face protection	Safety goggles
	Hand protection	Neoprene gloves. Time for wearing out the gloves material >30 minutes.
	Skin/body protection	Exposed employees should exercise reasonable personal cleanliness. This include cleansing exposed skin areas several times daily with soap and water an laundering or dry cleaning soiled work clothing. Long sleeve shirt recommended. Use chemically protective boots when necessary to avoid contaminating shoes. Do not wear rings, watches or similar apparel that could entrap the material and cause a skin reaction.
	Respiratory protection	No respiratory protection is normally required. If vapour or mist is generated, us approved respirator as appropriate.
	Thermal hazards	Not available
	Hygiene measures	When using, do not eat, drink or smoke. Always observe good personal hygien measures, such as washing after handling the material and before eating, drinking and/or smoking. Routinely wash work clothing to remove contaminants. Discar contaminated footwear that cannot be cleaned.
	Environmental exposure control	May form an oil film leading to de-oxygenation of water and possible harmfore effect on aquatic life.
		Product can penetrate soil until reaching the surface of ground water (in the presence of ground water).

SECTION 9: Physical and chemical properties

9.1.	Information on basic physical and chemical p	properties
	Appearance	Semi-fluid
	Colour	Yellow-brown
	Odour	Petroleum
	Odour threshold	Not applicable
	рН	Not applicable
	Freezing/Pour point, ^o C	Not applicable
	Initial boiling point and boiling range, ⁰ C	Not applicable
	Flash point, ⁰ C (Pensky-Martens Closed Cup)	>210 for base oil
	Evaporation rate	No data available
	Flammability (solid, gas)	Not applicable
	Upper/lower flammability or exposure limits	Not applicable
	Vapour pressure	Not applicable
	Vapour density	Not applicable

Revision No. 1 24.02.2017

	Relative density at 20ºC, g/ml	<1
	Solubility	Soluble in hydrocarbons, insoluble in water
	Partition coefficient: n-octanol/water	No data available
	Auto-ignition temperature, ^o C	Not applicable
	Decomposition temperature, ⁰ C	Not applicable
	Kinematic viscosity, mm ² /s	100 mm²/s at 40°C (for base oil)
	Explosive properties	None
	Oxidising properties	None
9.2.	Other Information	
	Dropping point, ⁰ C	> 160

SECTION 10: Stability and reactivity

- 10.1. **Reactivity:** Not expected to enter reactions.
- 10.2. **Chemical stability:** This product is considered chemically stable at normal storage and handling conditions.
- 10.3. Possibility of hazardous reactions: None
- 10.4. **Conditions to avoid:** This product is normally stable at moderately elevated temperatures and pressures.
- 10.5. **Incompatible materials:** Strong oxidizing agents, strong acids.
- 10.6. Hazardous decomposition products: None known

SECTION 11: Toxicological information

11.1 Information on toxicological effects

24.02.2017	A Page: 5 o
Revision No. 1	
STOT-single exposure	Not expected to damage specific target organs. Based on date for similar
Reproductive toxicity	Not expected to damage specific target organs. Based on date for similar substances.
Carcinogenicity	This product is not considered to be a carcinogenic by IARC, ACGIH, NTP or OSHA. Nota L – meets EU requirement of less than 3% (w/w) DMSO extract for total polycyclic aromatic compound using IP 346.
Germ cell mutagenicity	No data available to indicate product or any components present at levels greater than 0.1% are mutagenic or genotoxic.
Respiratory or skin sensitisation	Not expected to be respiratory or skin sensitizer. Prolonged or repeated skin contact as from clothes wetted with material may cause dermatitis
Serious eye damage/irritation	Not expected to cause serious eye damage or irritation. May cause eyes irritation. May cause minimal irritation or redness if accidental eye contact occurs.
Skin corrosion/irritation	Not expected to cause skin corrosion or irritation. Repeated or prolonged contact with skin may defat or dry the skin resulting in discomfort and dermatitis.
Acute toxicity	Based on data available for base oils: the classification criteria are not met LD ₅₀ oral (rats) > 5000 mg/kg (OECD 401) LD ₅₀ dermal (rabbits) > 5000 mg/kg (OECD 402) LC ₅₀ inhalation (rats) > 5 mg/l/4h (OECD 403) NOEL/21 days (aquatic invertebrates) > 10 mg/l (OECD 211) NOEL/72 h (algae) > 100 mg/l NOEL/10 min (microorganisms) > 1.93 mg/l (DIN 38412, DIN 38409)

	substances.
STOT-repeated exposure	Not expected to damage specific target organs. Based on date for similar substances.
Aspiration hazard	The mixture does not meet the criteria for classification.
Other information	If material is misted or if vapours are generated from heating, exposure may cause irritation of mucous membranes and the upper respiratory tract.

SECTION 12: Ecological information

his product is of relatively low toxicity – based on data of product components. C50 for base oil (96 hours for fish) is > 100 mg/l (OECD 203) C50 for base oils (48 hours for Daphnia) is > 10 000 mg/l (OECD 202) C50 for base oils (72-96 hours for algae or other aquatic plants) > 100 mg/l (OECD D1) OEL/21 days (aquatic invertebrates) > 10 mg/l (OECD 211) OEL/72 h (algae) > 100 mg/l OEL/10 min (microorganisms) > 1.93 mg/l (DIN 38412, DIN 38409) his product is not readily biodegradable. Information about base oil-Inherent odegradability <22% after 28 days (OECD 301B)
artition coefficient n-octanol/water (log K _{ow}) for base oils is > 4.0 - indicates ossible bioaccumulation.
ow, due to low water solubility. Spillage may penetrate the soil causing ground ater contamination.
ent nis product is not and does not contain any substance that is potential PBT or PvB .
lay form an oil film leading to deoxygenation of water and possible harmful fect on aquatic life.
ר סי ונ

SECTION 13: Disposal consideration

13.1	Waste treatment methods	Dispose of empty lubricant containers at approved for such wastes places. Follow all state or local regulations and requirements for disposal, recycle or reclaiming of waste oils and petroleum products.
	Waste Code	13 08 99* in accordance with European Waste Catalogue (E. W. C.)

SECTION 14: Transport information

14.1	UN Number	None	
14.2	UN proper shipping name	Not applicable	
14.3	Transport hazard class(es)	None	
14.4	Packing group	Not applicable	
14.5	Environmental hazards ADR	Not regulated as dangerous goods	
Revisio 24.02.2	on No. 1 2017		Page: 6 of 8

	RID AND	Not regulated as dangerous goods Not regulated as dangerous goods		
	IMDG	Not regulated as dangerous goods		
	ΙΑΤΑ	Not regulated as dangerous goods		
14.6	Special precautions to user	None		
14.7	Transport in bulk according to Annex II of Marpol and the IBC code Not applicable			
SECTI	ON 15: Regulatory informat	ion		
15.1	Safety, health and environmental regulations/legislation specific for the substance or mixture			
		Regulation (EC) No 1907/2006 of The European Parliament And Of The Council of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing a European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No 793/93 and Commission Regulation (EC) No 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC
